

**Directions For Use:**

Use only as directed.

SaniFlush is a ready to use formulation and should NOT be diluted.

SaniFlush was specially designed for the flush of SaniFog machine. It is also recommended for the flushing of the system of ULV machines.

**Application and Dosage:**

For the use with SaniFog:

SaniFlush should be used after every application of SaniChick through SaniFog machine.

A minimum of 50 ml should be flushed through the machine after every application. This will prevent blockage in the pipes and ensure clean accurate applications.

For The use with ULV equipment:

SaniFlush should be used after every use of the equipment.

A minimum of 200 ml should be flushed through the machine after every application. This will prevent blockage in the pipes and ensure clean accurate applications.

**Warnings:**

Handle with care. Poisonous when swallowed or absorbed through the skin. May irritate eyes and skin. Store in cool place away from feed and food. Keep out of reach of uninformed persons and animals.

**Precautions:**

Avoid inhalation of spray mist or dust. In case of skin contact, wash thoroughly with soap and water. Wash contaminated clothing, do not eat drink or smoke during preparation or application of the spray mix or before washing hands and face. Prevent contaminating water sources.

**Resistance Warning:**

Although this recipe has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be effected by factors such as abnormal substances not indicated on the label and the occurrence of unforeseen factors. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, or harm to man or animal or the lack of performance of the flush concerned due to failure of the user to follow the label instructions or to the occurrence of conditions, which could not have been foreseen. Consult the supplier in the event of uncertainty.
